Acknowledgment

In addition to the regular panel of Consulting Editors, the following individuals reviewed and evaluated manuscripts for Volume 3 of the *Journal of Experimental Psychology: Animal Behavior Processes.* The editor gratefully acknowledges their constructive efforts.

Hymie Anisman

A. G. Baker
Irwin S. Bernstein
Michael Best
Robert Boakes
Norman Braveman

E. J. Capaldi
Elizabeth Capaldi
Russell M. Church

A Unique Publication Service of APA

Journal Supplement Abstract Service

(JSAS) is an information service providing ready access to psychology-related materials not available through conventional communication channels. JSAS documents must meet the same high standards set for APA's journals, but they are not bound by conventional restrictions of format, length, or editorial policy. Materials available through JSAS include:

- Methodological techniques.
- Technical Reports.
- Massive data collections.
- Major projects in progress.

The quarterly JSAS **Catalog of Selected Documents in Psychology** publishes abstracts of accepted documents along with document length, price, and ordering information. Full-text documents may be purchased individually in paper or microfiche. Or complete collections of full-text documents are available in microfiche on a yearly subscription basis. For frequent users, libraries, psychology departments etc., there are special discount coupons which can be purchased at a 20% discount.

For more information write for a free brochure:
